PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience in backend development. Proficient in Python and FastAPI with a proven track record of building high-performance APIs. Strong foundation in data flow validation and technical documentation, with a collaborative approach to working alongside product and operations teams to meet project requirements.

SKILLS

Technical Skills: FastAPI, RESTful API Development, Data Flow Validation, Python

Core Skills: Requirements Analysis, Technical Documentation, Cross-functional Collaboration

Databases: SQL

Soft Skills: Teamwork, Problem-solving, Communication

EXPERIENCE

Software Engineer | Global Tech Solutions | 2020 - 2025

- Architected and maintained high-performance backend REST APIs using Python and FastAPI.
- Collaborated with product and operations teams to define system requirements and ensure seamless feature delivery.
- Implemented data validation logic within API flows to ensure system integrity and performance.
- Utilized SQL to manage database interactions and perform query optimization for data-heavy applications.
- Authored comprehensive technical documentation to facilitate team knowledge sharing and project maintenance.

EDUCATION

Middle East Technical University | BS | Computer Engineering
