### PROFESSIONAL SUMMARY

Aspiring Junior Backend Developer with a focus on .NET ecosystem and RESTful API architecture. Currently pursuing a Computer Engineering degree and building practical experience in payment systems and data-driven application development. Proven ability to collaborate with technical teams, maintain API documentation, and perform SQL-based data analysis.

### SKILLS

Technical Skills: RESTful APIs, ASP.NET Core Web API, FastAPI, C#, .NET, Python, Entity Framework Core, SignalR

Core Skills: API Development, Data Validation, Business Requirements Analysis, Documentation, Problem Solving, Cross-functional Collaboration

Tools: Git, GitHub, Postman, Swagger, Docker

Databases: Azure SQL Database, SQL Server, SQL, SQLite, Supabase PostgreSQL, ChromaDB

Cloud: Azure SQL, Supabase

Soft Skills: Teamwork, Communication, Solution-Oriented Service

### EXPERIENCE

#### Payment Systems Application Development Intern | VakıfBank | Istanbul, Turkey | Feb 2026 - Jun 2026

- Authored SQL queries to support data analysis, integrity validation, and backend operations.
- Developed and maintained RESTful API endpoints using .NET Core.
- Collaborated with technical teams to translate business requirements into actionable technical tasks.

#### Sales Assistant | Inditex Zara | Istanbul, Turkey | Sep 2021 - Feb 2026

- Collaborated with team members to support daily store operations and problem-solving.
- Managed high-volume customer interactions in a fast-paced retail environment.
- Delivered solution-oriented service to address customer needs efficiently.

### PROJECTS

#### Restaurant POS System

Full-stack web and mobile system for restaurant management.

Technologies: ASP.NET Core Web API, Supabase PostgreSQL

- Built backend business logic and RESTful APIs.
- Managed relational database operations and implemented real-time updates.

#### Merchant Application System

API-driven application for merchant data management.

Technologies: ASP.NET Core, Entity Framework Core, Fluent Validation

- Developed RESTful APIs and implemented data access logic.
- Integrated external services including Google Maps and currency exchange APIs.

### EDUCATION

#### Nisantasi University | Bachelor of Computer Engineering | Computer Engineering | Sep 2023 - Jun 2026

#### Beykent University | Bachelor of Software Engineering | Software Engineering | Sep 2022 - Jun 2023

### CERTIFICATIONS

- Data Analytics | Google
- Data Analytics Essentials | Cisco
- Advanced C# Language Features & Object-Oriented Programming | Microsoft
- AI & ML Engineering | Microsoft

### LANGUAGES

- Turkish - Native
- English - B2
