PROFESSIONAL SUMMARY

Results-oriented Software Engineer with over 5 years of professional experience in designing and implementing high-performance backend systems. Proven expertise in Python and FastAPI with a strong focus on building scalable RESTful APIs. Adept at collaborating with cross-functional teams to translate product requirements into robust technical solutions.

SKILLS

Technical Skills: FastAPI, RESTful API Development, API Documentation, Python

Core Skills: Backend Architecture, Data Flow Validation, Requirement Analysis, Cross-functional Collaboration

Tools: Git, GitHub

Databases: SQL

Soft Skills: Technical Documentation, Problem Solving, Team Collaboration

EXPERIENCE

Software Engineer | Global Tech Solutions | 2020 - 2025

- Developed and maintained high-performance backend APIs using Python and FastAPI, ensuring reliable service delivery.
- Applied SQL knowledge to support data querying and database interaction within backend services.
- Collaborated with product and operations teams to translate business requirements into efficient API endpoints.
- Implemented data validation logic within API flows to ensure system integrity and high-quality data handling.
- Contributed to the documentation of technical requirements and API specifications to support development consistency.

EDUCATION

Middle East Technical University | BS | Computer Engineering
