PROFESSIONAL SUMMARY

Aspiring Junior Backend Developer currently pursuing a Computer Engineering degree. Hands-on experience in building RESTful APIs, database operations, and payment systems through academic projects and professional internships. Proficient in C#, .NET Core, and Python with a focus on writing clean, scalable backend code.

SKILLS

Technical Skills: ASP.NET Core Web API, FastAPI, RESTful APIs, Python, C#, .NET Core, Entity Framework Core, SignalR, Fluent Validation

Core Skills: API Testing, Backend Development, Database Operations, Business Requirement Analysis, Problem-Solving, Collaboration

Tools: Git, GitHub, Postman, Swagger, Docker

Databases: SQL Server, Azure SQL Database, SQL, SQLite, Supabase PostgreSQL, ChromaDB

Cloud: Azure SQL, Supabase

Soft Skills: Teamwork, Customer Interaction, Communication

EXPERIENCE

Payment Systems Application Development Intern | VakıfBank | Istanbul, Turkey | Feb 2026 - Jun 2026

- Developed and maintained RESTful API endpoints using .NET Core.
- Wrote and optimized SQL queries to support data analysis, validation, and backend operations.
- Performed API testing and request/response flow validation using Postman.

Sales Assistant | Inditex Zara | Istanbul, Turkey | Sep 2021 - Feb 2026

- Managed high-volume customer interactions in a fast-paced retail environment.
- Contributed to team operations through effective communication and problem-solving.

PROJECTS

Restaurant POS System

Full-stack application for restaurant table, order, and payment management.

Technologies: ASP.NET Core Web API, Supabase PostgreSQL, JWT

- Developed backend business logic and RESTful APIs using ASP.NET Core.
- Implemented real-time table and order updates via Supabase Realtime.

Merchant Application System

Web API project focusing on merchant data management and external integration.

Technologies: ASP.NET Core, Entity Framework Core, Fluent Validation

- Integrated external APIs including Google Maps and currency exchange services.
- Implemented data access logic and database operations using Entity Framework Core.

EDUCATION

Nisantasi University | Bachelor of Computer Engineering | Computer Engineering | Sep 2023 - Jun 2026

Beykent University | Bachelor of Software Engineering | Software Engineering | Sep 2022 - Jun 2023

CERTIFICATIONS

- Advanced C# Language Features & Object-Oriented Programming | Microsoft
- Data Analytics | Google
- Data Analytics Essentials | Cisco
- AI & ML Engineering | Microsoft

LANGUAGES

- Turkish - Native
- English - B2
