PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience in backend development. Proficient in designing high-performance REST APIs and scalable data flows. Proven track record in collaborating with cross-functional teams to deliver technical solutions and maintain robust system architectures.

SKILLS

Technical Skills: Backend Architecture, FastAPI, RESTful API Development, Data Validation, Python

Core Skills: API Lifecycle Management, Technical Documentation, Requirement Analysis, Cross-functional Collaboration, Workflow Optimization

Tools: Swagger/OpenAPI, Git, Postman

Databases: SQL, Database Design

Soft Skills: Team Collaboration, Problem Solving, Clear Communication, Attention to Detail

EXPERIENCE

Software Engineer | Global Tech Solutions | 2020 - 2025

- Designed and maintained high-performance backend REST APIs using Python and FastAPI, ensuring system scalability.
- Wrote and optimized complex SQL queries to support application data requirements and reporting needs.
- Collaborated with product and operations teams to translate business requirements into technical specifications and documentation.
- Implemented robust data validation logic within API flows to ensure data integrity and system reliability.
- Participated in the full development lifecycle, focusing on API maintenance, debugging, and continuous improvement of backend services.

EDUCATION

Middle East Technical University | BS | Computer Engineering
